Full-stack developer specializing in Flutter with 5 years of experience delivering scalable cross-platform mobile applications. Additionally experienced in .NET and Angular for 1.5 year, building web applications and backend APIs. Passionate about creating high-quality, user-focused solutions while expanding full-stack expertise and adopting modern software practices

EXPERIENCE

DATABAND IT SOLUTIONS : 2024 – PRESENT

- Contributing to multiple projects as a full-stack and mobile developer (flutter, .net, angular)
- Developing advanced reports using devexpress and integrating them into enterprise systems
- Maintaining and fixing legacy asp.net mvc projects, including report generation using fastreport
- Working on lims systems, implementing new features and improving workflows
- Handling debugging, refactoring, and optimizing performance across backend and Frontend modules

FREELANCER : 2020 – 2024

Developed a diverse range of mobile applications as a freelance Flutter developer over 4 years, including ride-sharing apps similar to Uber (Meshwark), audio playback apps, car wash service platforms, data encryption tools, and healthcare applications such as Kidney Care. Focused on building scalable architectures, implementing modern UI/UX, integrating APIs, and delivering end-to-end product solutions from planning to deployment.
